

ONUR BAYIRLI

Full Stack Web Developer

ABOUT ME

Born in 2000 in Hatay, Turkey, my journey into the world of technology began at a young age, fostering a deep curiosity for computers, websites, apps, games, and various other technologies. Recognizing that coding forms the logic behind these innovations, I embarked on a journey to master web development and cyber security. Over the past four years, I have improved my skills in these areas, consistently pushing boundaries and developing numerous websites to showcase my capabilities. My passion for learning and commitment to excellence drive me to continually expand my knowledge and expertise in this ever-evolving field.
